

Volcanic Ash – 2145UTC annotated satellite image

Issued 2130 UTC on Thu 07 Aug 2014

TEST TEST TEST

EEIL41 MSG Dust RGB 07/08/2014 2115 UTC

LOW CONFIDENCE-
PIREP report of VA at FL180. to north of Bardabunga but cloud obscuring area on imagery

HIGH CONFIDENCE-
IMO radar discerning VA in layers to FL460 to southwest of Bardabunga.
Thick cloud obscuring area close to source but VA discernable nearer coast extending over sea.
