

Volcanic Ash – T+0 annotated satellite image

Issued 1000 UTC on Fri 29 Aug 2014

EEEN41 MSG Dust RGB 29/08/2014 1000 UTC

HIGH CONFIDENCE-

- No ash detected by Radar.
- No ash detected on geostationary or polar orbiting satellite images.
- No lightning detected by Met Office ATDNet, implying no eruptive plume.
