

Volcanic Ash – 1500 UTC annotated satellite image

Issued 1500 UTC on Tue 22 Sep 2015

EXERCISE

EEIL41 MSG Dust RGB 22/09/2015 1500 UTC

MEDIUM CONFIDENCE

PIREP of VA at FL200, but unable to verify from satellite imagery due to cloud obscuration

HIGH CONFIDENCE-

VA partially visible on satellite imagery in these two areas with IMO doppler radar verification near volcano.

EXERCISE

LOW CONFIDENCE-

PIREP report of VA at FL180. BUT not discernable on imagery due to cloud cover
