

1300 UTC Jan 27 2016 annotated satellite image

Issued 1350 UTC on Wednesday 27 Jan 2016

(NAME 0934UTC) 27/01/2016 1300 UTC

LOW CONFIDENCE-

Ash may extend further west in Denmark Strait but cloud cover means it cannot be discerned by satellite imagery.

EXERCISE

HIGH CONFIDENCE-

VA clearly discernible in satellite imagery. Verified by IMO radar at source.

HIGH CONFIDENCE-

Plume height decreased to 5.4km since 27/0900UTC, confirmed by IMO radar and satellite derived products.

LOW CONFIDENCE-

Edge of Ash plume may extend further west as cloud cover means it cannot be discerned by satellite imagery.

HIGH CONFIDENCE-

Ash detected by IMO radar and local visible reports.
