Co-production in African weather and climate services
The building blocks of co-production

CO-PRODUCTION APPROACH

- Identify key actors and build partnerships
- Build common ground
- Co-explore need
- Co-develop solutions
- Co-deliver solutions
- Evaluate

Ten principles for good co-production

- Improve transparency of forecast accuracy and certainty
- Tailor to context and decision
- Deliver timely and sustainable service
- Build trust
- Embrace diversity and respect differences
- Enhance inclusivity
- Keep flexible
- Support conscious facilitation
- Communicate in accessible ways
- Ensure value-add for all involved

Building on models developed by AMMA-2050, Visman et al., 2017b and KCL engagement in two BRACED consortia projects in Visman et al., 2018 and WISER 2017
The information presented in this poster is drawn from a Manual on Co-production in African Weather and Climate Services. To access the digital version of the manual please scan the following code or find it on the website – https://futureclimateafrica.org/coproduction-manual

This document is an output from two programmes. Weather and Climate Information Services for Africa (WISER) is funded by the UK Department for International Development (DFID) and Future Climate For Africa (FCFA) is funded by DFID and the UK National Environment Research Council (NERC). However the views expressed and information contained in it are not necessarily those of, or endorsed by, DFID and NERC, who can accept no responsibility for such views or information or for any reliance placed on them. This publication has been prepared for general guidance on matters of interest only, and does not constitute official advice. No representation or warranty (express or implied) is given as to the accuracy or completeness of information contained in this publication.

All authors have contributed equally and are listed alphabetically.
