20.0 °C at Herstmonceux (East Sussex)
- Lowest Maximum Temperature:**  
11.8 °C at Fair Isle (Shetland)
- Lowest Minimum Temperature:**  
6.5 °C at Castlederg (Tyrone)
- Lowest Grass Minimum Temperature:**  
2.0 °C at Stornoway Airport (Isle of Lewis)
- Most Rainfall:**  
41.4 mm at Uffington, Sower Hill (Oxfordshire)
- Most Sunshine:**  
14.7 hours at St. Mawgan (Cornwall)

### General summary

A band of heavy rain from central southern England to eastern Scotland in the morning became heavier, especially in the south and then persisted through much of the day bringing 30–40mm over much of central southern England. Further thundery showers broke out over Kent later after some sunshine raised temperatures there. Much of Northern Ireland, western Wales and the far west of England were drier and brighter with much less rain. Through the afternoon, this drier and brighter weather slowly pushed westwards to affect more of the United Kingdom, but it remained cloudy further east, with further outbreaks of rain through the evening, heavy at times across north-east England.
