

 Creating extreme weather guidance

What is extreme weather?

Creating extreme weather guidance: prompt questions

- What was it?
- When and where did it occur?
- Who did it affect and how?
- What did people do before, during and after the event to mitigate (or reduce) the impacts and effects to themselves and the local area? Could they have done anything else?
- To what extent do you think there will be more events like this or events with a greater severity in the future?
